

Cyber security

Intelligent – Networked – Innovative: The smart choice is Surrey.

UK overview

INVEST IN **SURREY**

UK overview

UK cyber security market:

- largest, most concentrated and accessible in Europe
- worth £2.8 billion – forecast to be worth over **£3.4 billion by 2017**
- deep understanding of international cyber security trends and risk management
- high profile **market opportunities** – number of large UK projects will require cyber security on completion.

UK overview

UK cyber security market:

- supported by comprehensive **cyber security strategy**
- further £210 million government investment for **National Cyber Security Programme** in 2015-16, on top of £650 million set aside over previous four years
- offers **well-connected ecosystem** of world-leading companies, clusters, research institutions, networks and associations
- growing due to proliferation in **e-commerce**.

Why Surrey?

INVEST IN **SURREY**

Excellent connectivity

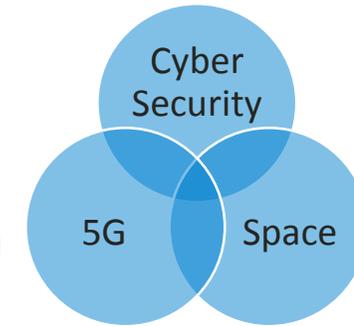

[London Gatwick](#) serves +200 destinations in 90 countries.
[London Heathrow](#) serves 185 destinations in 84 countries.

- **Immediate proximity to London** without the high-cost.
- **Significant global assets** – borders UK's two largest airports, [London Gatwick](#) and [London Heathrow](#). **London Gatwick serves 47 out of the top 50 European business destinations.**
- **Well connected** to the high-technology hubs along the M4 and M3 corridors.

World-leading in cyber security

- World-leading **academic cluster**, with unique links to leading-edge technologies e.g. [5G](#) and [Space and Satellite](#).
- Significant assets in **skills and expertise**, including:
 - Two GCHQ certified **Centres of Excellence** in cyber security research
 - Impressive cohort of **highly-skilled graduates**
 - Royal Holloway's [MSc in Information Security](#) has produced +3000 postgraduates from +100 countries, now working throughout the world
 - 70% of all Chief Information Officers of UK-based large corporations are graduates of Royal Holloway's postgraduate programme.
- **High concentration of businesses** in the cyber security sector, including [CGI](#) and [BAE Systems Applied Intelligence](#).

Academic and research excellence

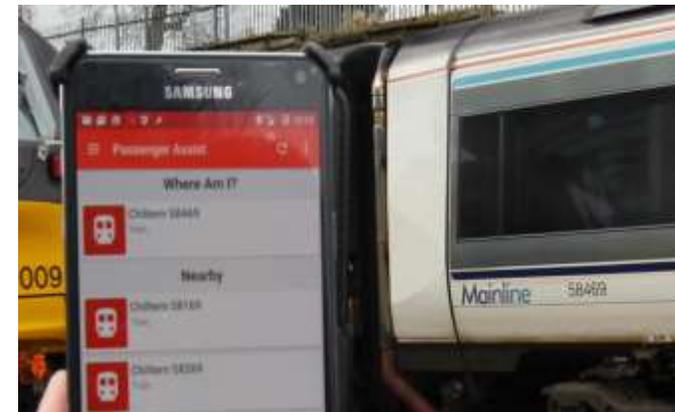

- Two GCHQ-certified **Centres of Excellence** in cyber security research – The [Information Security Group](#) at Royal Holloway University of London and the [Surrey Centre for Cyber Security](#) at the University of Surrey.
